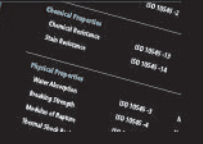
TECHNICAL SPECIFICATION 36



THE COMPANY

Vio Ceramica is one of the leading importers of porcelain tiles for wall and floor coverings for residential, retail and industrial projects in Malaysia. We stock an extensive choice of products that have been carefully sourced from the best manufacturers around the world. From design, through fulfillment, we continuously strive to provide our customer with the best values, selection and service in the industry.

Our role is to deliver a successful outcome for your project. Our experiences give us an instinctive appreciation of what works and what does not, whatever the environment or budget. We have years of experience within our many specialist teams, it is our enthusiasm for what we do that makes the real difference.

PORCELAIN TILE

A high performance material that is harder than granite, dense, exceptionally durable, stain and scratch resistant. It is suitable for use in all areas of the home and come in a wide variety of styles. Porcelain tile is available in multiple finishes, including polished, matte and textured. It is easy to live with, easy to clean and maintain, and will look brilliant for many many years.

Matte Finish Porcelain Tiles

Many modern figurines have a matte finish. Matt is a smooth, even surface free of shine or gloss. Matte-finish tile provides additional "bite" to the surface, making it non-slip and ideal for all areas of home and can provide a subtler look.

Polished Finish Porcelain Tiles

Polished porcelain tiles have a bright shine and an elegant finish. When a floor is tiled with polished porcelain, it adds a new dimension to any area of your home or commercial building. It reflects light and makes an area brighter, more inviting, and creates an illusion of space.

Textured Porcelain Tiles

Textured porcelain tiles are occasionally known as stone look tiles. They can have slightly rough surface or an extremely rough and high-relief surface. Stone look or textured porcelain tiles are given their finish before firing, so the surface of the tiles remains just as dense, water-resistant and stain-proof as the rest of the body of the tile.

URBAN SPACE

A superior collection of modern styles and textures chosen for its excellent color palette, surface finish options and sizes. Characterized by color consistency and uniformity, utterly practical, versatile and easy to maintain. It's a great way to brighten up an otherwise sterile space.

Chemical Resistance	ISO 10545 -13	Visual check	No visible change	No visible change
Stain Resistance	ISO 10545 -14	Visual check	Class 3	Class 3
Physical Properties				
Water Absorption	ISO 10545 -3	Mass	≤ 0.5%	≤ 0.25%
Breaking Strength	ISO 10545 -4	N	≥ 1300N	> 1500N
Modulus of Rupture	ISO 10545 -4	N/mm^2	Min. $35N/mm^2$	≥ $35N/mm^2$
Thermal Shock Resistance	ISO 10545 -9	Visual check	No visible crack	No visible crack
Frost Resistance	ISO 10545 -12	Visual check	Required	No visible crack
Deep Abrasion	ISO 10545 - 6	mm^3	≤ $175/mm^3$	≤ $160/mm^3$
Surface Abrasion PEI ASTM C1027	ISO 10545 -7	Visual check	Manuf. to state abrasion class, cycle passed	Min. PEI 3

Color Variations: Since the color reproduction in this printed piece will vary from the actual tile colors, final selection should be made from tile samples. Color, shade and glaze variations may exist due to the inherent characteristics of porcelain tile.

Due to the low porosity of porcelain tiles, an Improved High Performance Cementitious adhesive in accordance to BS EN 12004 & ISO 13007-1 is highly recommended for proper installtion. Products that meet this standard are available amongst leading adhesive manufacturers. Please seek expert advice from adhesive manufacturers for proper selection and application.
